

# Cosmos in the Classroom 2007

## Handouts and Papers Volume

### TABLE OF CONTENTS

|   |    |
|---|----|
| Organizing Committees and Supporting Organizations.....   | 1  |
| Introduction — Andrew Fraknoi (Foothill College & Astronomical Society of the Pacific) .....  | 7  |
| <b>A. Astronomy Education Research</b>  |    |
| Using Concept Inventories to Gauge Student Understanding in Astronomy — Janelle Bailey<br>(University of Nevada, Las Vegas) .....   | 11 |
| Regulations and Ethical Considerations for Astronomy Education Research — Erik Brogt,<br>Erin Dokter, Jessie Antonellis, and Sanlyn Buxner (University of Arizona) .....  | 15 |
| Constructivism in the Astro 101 Classroom: A Pilot Study — Erin Dokter & Bruce Johnson<br>(University of Arizona).....  | 19 |
| Applying Learner-Centered Methods to Introductory Astronomy Courses at Youngstown State<br>University — John Feldmeier, Patrick Durrell, Matthew Boser, Zachary Brown (Youngstown State<br>University) .....  | 23 |
| Start with What You Know: Using Our Scientific Background in the Classroom — Danielle Martino<br>(Santiago Canyon College), Edward Prather (University of Arizona), Morrie Barembaum (Santiago<br>Canyon College), and Gina Brissenden (University of Arizona)..... | 27 |
| <b>B. Teaching Techniques</b>   |    |
| The NASA Center for Astronomy Education Teaching Excellence Workshops: An Introduction to<br>the Techniques — Gina Brissenden, Edward Prather, & Timothy Slater (University of Arizona) .....   | 33 |
| Ranking Tasks for Introductory Astronomy: A Sample — Gina Brissenden, Edward Prather,<br>& Timothy Slater (University of Arizona) .....   | 37 |
| Think-Pair-Share Questions for Introductory Astronomy: A Sample — Gina Brissenden,<br>Edward Prather, & Timothy Slater (University of Arizona) .....  | 47 |
| Institutionalizing a Culture of Improvement in University Science Teaching — Aaron Brower, Steve<br>Ackerman, Robert Mathieu, Don Gillian-Daniel, Christine Pfund, Eric J. Hooper, Kitch Barnicle<br>(University of Wisconsin-Madison) .....                        | 49 |
| Effective Use of Wireless Student Response Units (“Clickers”) — Douglas Duncan (University of<br>Colorado, Boulder) .....   | 51 |
| A Telescope Ranking Task Handout — Patrick Durrell (Youngstown State University).....   | 57 |
| Planet Property Charts as Study Aids for Comparative Planetology — Tom English (Guilford<br>Technical Community College) .....  | 59 |
| What Did those Education People Tell Me? Putting Teaching Recommendations into Practice in<br>a Large Lecture Course — Eric Hooper (University of Wisconsin-Madison).....   | 61 |
| Technology and Inquiry-Based Teaching in Astronomy — Chris Impey (University of Arizona) .....  | 65 |
| The Universe is Universal: Developing Astronomy Based Learning Communities — Kristine Larsen<br>(Central Connecticut State University) .....  | 71 |

|  |     |
|--|-----|
| Formative, Summative, and Collaborative Clicker Instruction in Astronomy — Patrick M. Len<br>(Cuesta College) .....  | 75  |
| Seven Years and Counting in the Student-centered Classroom — Michael LoPresto & Steve Murrell<br>(Henry Ford Community College) .....  | 79  |
| Using the Pedagogy of Service Learning at the University of Central Florida — M. Montgomery<br>and R. Deshpande (University of Central Florida) .....  | 81  |
| Science Instruction and Student Resistance to Science — Brock Schroeder (Olivet Nazarene<br>University) .....  | 83  |
| Teaching the Nature of Science in Astro 101 — Stephen Shawl (University of Kansas).....  | 91  |
| Engaging Student Learning in Astronomy Through Writing Tasks — Timothy F. Slater, Edward E.<br>Prather, Gina Brissenden (University of Arizona) .....  | 95  |
| Designing Astronomy-Math Components for Large Lectures — Michael D. Stage and Stephen E.<br>Schneider (University of Massachusetts Amherst).....   | 99  |
| Scale in the Solar System: Identifying and Addressing Naïve Conceptions — Mary Urquhart<br>(University of Texas at Dallas).....  | 103 |
| Some Lecture-Tutorial Exercises for Non-majors Astrobiology Courses — Andrew Vanture (Everett<br>Community College) .....  | 107 |
| In-class Active Engagement Exercises for Rapid Assessment and Student Development of the<br>Scientific Method — David Voorhees (Waubensee Community College).....  | 111 |
| <b>C. Laboratory Exercises, Demonstrations, and Observing Activities</b>   |     |
| Real Moon or Simulated Moon? What is the Best Choice for the Classroom? — William Alexander<br>(James Madison University) .....  | 117 |
| Relative Distances of Stars: A Laboratory for Introductory Astronomy — Beth Bell and Neal<br>Sumerlin (Lynchburg College) .....  | 121 |
| Infrared Cameras for Astronomy Education — Joann Eisberg (Chaffey College) and Denise Kaisler<br>(Citrus College).....   | 125 |
| The Star Project — Becky Ericson (George Mason University).....  | 127 |
| Demonstrations for Introductory Astronomy — David Haley, and Bryan Penprase<br>(Pomona College) .....  | 129 |
| A Java-based Educational Tool for Modeling the Content of the Universe through Observations<br>of High-Redshift Supernovae — M. Mijic, D. Wells, R.K. Lim, Z. Hu, D. Park, F. Wong, S. Levitin,<br>M. Rios, E.Y. Kang, and T. Longson (California State University Los Angeles)..... | 131 |
| Utilization of Video Technology to Enhance Instruction in Introductory Astronomy Courses<br>— M. Mon, M. Fauerbach, S. Marks (Florida Gulf Coast University).....  | 135 |
| The Interactive Planetarium: Student-led Investigations of Naked-Eye Astronomy and Planetary<br>Motion — Emily Rice and Nate McCrady (UCLA) .....  | 137 |
| Finding Stellar Properties: From Parallax to Radius — Lanika Ruzhitskaya and Angela Speck<br>(University of Missouri – Columbia) .....   | 139 |
| Special Interest Group: Teaching or Developing a Separate Lab Course in Astronomy — Facilitator:<br>Stephen Shawl (University of Kansas) .....   | 143 |

## **D. On-line Teaching and Telescopes**

|   |     |
|---|-----|
| Mastering Astronomy: A New Paradigm in Homework for Courses Large and Small — Jeffrey Bennett (University of Colorado) .....  | 147 |
| Space Science and Astronomy Destinations within Second Life — Anthony Crider (Elon University)...   | 151 |
| Make it Sticky with a Wiki: Making Science Come Alive through Controversy and Evidence-based Argument — Becky Ericson (George Mason University).....  | 153 |
| Copyright, Teaching, and Podteaching — Pamela Gay (Southern Illinois University) .....  | 155 |
| Podcasting: The Other Content Meat — Pamela Gay (Southern Illinois University) .....  | 159 |
| The Galaxies and Cosmos Explorer Tool: An On-Line Resource — Mary Kay Hemenway, Shardha Jogee, Sarah Miller, Aaron Smith, Achal Augustine, and Dan Lester (University of Texas at Austin) ..... | 161 |
| Teaching Astronomy Online Roundtable — Moderator: Scott Hildreth (Chabot College).....  | 163 |
| Las Cumbres Observatory Global Telescope Network: Keeping Education in the Dark — Rachel Ross, Jessica Barton, and Wayne Rosing (Las Cumbres Observatory GTN) .....                             | 167 |
| Using Remote-Control Telescopes in ASTR 101: A Brief Report From A Break Out Discussion — Moderator: Tim Slater (University of Arizona) .....   | 169 |
| “Deep” Illustrations and Dynamic Content — Tad Thurston (Oklahoma City Community College) ...   | 171 |

## **E. Interdisciplinary Approaches**

|   |     |
|---|-----|
| Using Art as a Point of Departure for Teaching Astronomy to Non-Science Majors — John Beaver (University of Wisconsin – Fox Valley) .....                 | 175 |
| Astronomy as the Basis for an Interdisciplinary Course “Concepts in Science” — B. Biernacka, R. Kobes, V. Milosevic-Zdjelar (University of Winnipeg)..... | 179 |
| Using Astronomically-inspired Music in Your Classroom — Andrew Fraknoi (Foothill College).....  | 181 |
| The Harmony of the Spheres: An Astronomy/Music Freshman Learning Community — Kristine Larsen (Central Connecticut State University) .....                 | 183 |
| Archaeoastronomy in the Undergraduate Curriculum — Bryan E. Penprase (Pomona College).....  | 187 |
| Science Play: Using Theater to Teach Astronomy — Arielle Phillips (Amherst College) .....   | 191 |

## **F. Debunking Pseudoscience**

|   |     |
|---|-----|
| Intelligent Design: A Brief Description — Matt Bobrowsky (Authentic Learning and Teaching, LLC)...  | 197 |
| Debunking Astronomical Pseudoscience: A Resource List — Andrew Fraknoi (Foothill College) .....   | 199 |
| The Flat Earth, Astrology, and Applying Occam’s Razor: Differentiating Science from Pseudoscience in Introductory Astronomy — Paul Robinson (Westchester Community College) ..... | 201 |

## **G. Resources for Teaching and Learning**

|   |     |
|---|-----|
| SABER: The Searchable Annotated Bibliography of Education Research in Astronomy — Janelle Bailey (University of Nevada, Las Vegas), Gina Brissenden (CAPER Team, University of Arizona), and Dave Bruning (University of Wisconsin-Parkside)..... | 209 |
| 2007 Survey of Introductory Astronomy Textbooks — David Bruning (University of Wisconsin-Parkside).....   | 211 |

|   |     |
|---|-----|
| Readability Analysis of Introductory Astronomy Textbooks — David Bruning (University of Wisconsin-Parkside) .....   | 213 |
| Special Interest Group Report: What Do We Need from Astronomy Textbooks? — Moderator: David Bruning (University of Wisconsin, Parkside) .....   | 217 |
| Astronomy Notes: Complete + Open Introductory Astronomy Website — Nick Strobel (Bakersfield College).....   | 219 |
| Astronomy Education Review: An On-line Journal of Special Interest to Astronomy Instructors — Sidney Wolff (NOAO) and Andrew Fraknoi (Foothill College) .....   | 221 |
| <b>H. Other Educational Topics</b>  |     |
| On the Development of Student Learning Outcomes — Morrie Barembaum & Danielle Martino (Santiago Canyon College).....  | 225 |
| Understanding Sky Motion by Predicting Star Locations in the Planetarium — Kenneth Coles (Indiana University of Pennsylvania) .....   | 229 |
| Running an On-Campus Planetarium: Special Interest Discussion Roundtable — Moderator: David Falk (Los Angeles Valley College).....  | 231 |
| Special Courses or Workshops for K–12 Teachers: A Discussion — Eric Hooper and Mary Kay Hemenway (University of Texas) .....  | 235 |
| Potential Career Tracks Associated with the APS Undergraduate Major at the University of Colorado — Seth Hornstein and John Stocke (University of Colorado) .....   | 239 |
| Mystery Solar Systems — Dave Kary (Citrus Community College).....   | 243 |
| Special Challenges in Being a Part-Time Astronomy Instructor: Special Interest Group Discussion — Facilitator: Danielle Martino (Santiago Canyon College) .....   | 247 |
| “Universal” Education: Using Modern Cosmology to Increase Student Interest in Learning — Bruce Partridge (Haverford College).....   | 249 |
| What To Drop from a One-Semester Version of “Astro 101” — Moderated by Bruce Partridge (Haverford College) .....  | 255 |
| So You Want an Observatory... — Mark Rader (Notre Dame High School, Riverside, CA).....   | 257 |
| A Novel, Inexpensive, and Compact Design for a Campus-Based Permanent True Scale Model Solar System — Edward Rosenthal, Casey Durandet, David Harbster, David Hellmann, John Jones, and Hank Mancini (Paradise Valley Community College)..... | 259 |
| Settling the Solar System: A Course for Gifted High School Students — Neal Sumerlin (Lynchburg College).....  | 261 |
| About the Astronomical Society of the Pacific.....  | 265 |
