Project ASTRO

Follow Up Workshop

Telescope Clinic

Friday, January 28, 2004 6:00 – 10:00 pm
Chabot Space and Science Center

Telescope Clinic w/ Eastbay Astronomical Society

Learn to set up, use, and answer questions about the telescopes that are available for check out by partners from the Project ASTRO Lending Library. If you think that you may borrow a scope anytime, please try to attend the workshop. (Attendees may also have a terrific opportunity to view some special objects through the special telescopes at Chabot as well.) This workshop is a great introduction to the regular Chabot Telescope Makers Workshop!

All active Project ASTRO Partners invited!

Partnerships are not required to attend together. If only one of you can make it, please share what you learned with your partner.

Light Snacks and fresh, cool air available

Water and light snacks will be available from Chabot's vending machines. If you desire more, please make your own arrangements for food. (Chabot's snack bar will be closed.) Please dress warmly and in layers since part of this workshop will occur outdoors.

RSVP Required!

Please RSVP by completing the online registration form at <http://www.astrosociety.org/education/astro/bayarea/schedule.html>. You may also email or phone the Bay Area Coordinator.

DIRECTIONS TO CHABOT

1000 Skyline Blvd., Oakland CA 94619

<http://www.chabotspace.org/visit/directions.asp>

- *From downtown Oakland, or San Francisco:* Go east on I 580 to Highway 24 (towards Walnut Creek). From 24, go south on Highway 13 (Warren Freeway) towards Hayward. Take the Joaquin Miller/ Lincoln Avenue exit. Turn left and proceed up the hill on Joaquin Miller to the crest, then turn left at the signal onto the two lane portion of Skyline Blvd. Chabot Space & Science Center is 1.3 miles up Skyline on the right.
- *From Hayward, Castro Valley and points East:* Go west on I 580 and take the Highway 13 (Warren Freeway) turnoff. Take the Joaquin Miller/Lincoln Avenue exit. Turn right, and proceed up the hill on Joaquin Miller to the crest, then turn left at the signal onto the two lane portion of Skyline Blvd. Chabot Space & Science Center is 1.3 miles up Skyline on the right.
- *From eastern Berkeley, Orinda etc.:* Go south on Highway 13 (Warren Freeway) towards Hayward. Take the Joaquin Miller/ Lincoln Avenue exit. Turn left and proceed up the hill on Joaquin Miller to the crest, then turn left at the signal onto the two lane portion of Skyline Blvd. Chabot Space & Science Center is 1.3 miles up Skyline on the right.

Special thank you to Project ASTRO Partners, Carter Roberts and Paul Hoy for hosting and facilitating this workshop! And of course, thanks to Chabot for the space!
